Positions

Hong Kong Polytechnic University

Hong Kong, China

Postdoctoral Fellow in the Department of Computing

2025–Present

Advisor: Prof. Lei Yang [[Homepage](#)]

Thesis: Research on Optical Signal-Based Sensing Technology for Mobile Devices

Education

Shanghai Jiao Tong University

Shanghai, China

Ph.D. in Computer Science

2019–2024

Advisor: Prof. Fan Wu [[Homepage](#)]

Northeastern University

Shenyang, Liaoning, China

B.Eng. in Computer Science and Technology

2015–2019

Thesis: Design and Implementation of a Visible Light Positioning System

Research Interests

My research interest lies in **Ubiquitous sensing and wireless communication**. Specifically, it includes:

- 1) Ubiquitous sensing. I'm interested in sensing techniques on mobile devices. I'm also interested in universalizing specialized sensing devices through minimization and cost reduction.
- 2) Wireless communication: I'm interested in wireless communication technologies, including light-based communication and other signal-based wireless communication methods.

Honors and Awards

- **Second-Place winner**, Student Research Competition at MOBICOM 2021 *2022*
- **Outstanding graduates**, Northeastern University *2019*
- **Academic Scholarship**, Northeastern University *2015–2018*

Skills _____

Programming I'm familiar with Arduino, Python, C and C++ programming.

Signal & Hardware I have experience in processing light signals. I 'm familiar with the usage of light sensors and pyroelectric sensors.

Theoretical Knowledge I have mastered the theories of optical propagation and thermal radiation.

Service _____

Reviewer

IEEE/ACM Transactions on Mobile Computing (TMC)

Executive Committee

China Computer Federation Student Branch in Shanghai Jiao Tong University

2019-2022
